Special Education Pupils by Bus

- Special needs students can be serviced by a regular education route.
- If total of special needs students is less than 50 percent, all are counted as regular education riders.

Review: How to Account for Special Education Pupils

- Only count “special needs” students if **50 percent or more** riders are *eligible*.
- Special needs are identified AND an IEP noting transportation as a related service is in effect.
- A student may still be a special needs student, but for funding purposes, they must meet the above criteria.

Pro-rated Special Education Pupils

If 50 percent or more riders are eligible special needs AND total student count is NOT 100 percent special needs, count is to be pro-rated.

20 students counted, 11 are special needs, then counts would be 9 regular education and 11 special needs.
